PROFESSIONAL PROFILE

Software engineering undergraduate with hands-on experience in full-stack development and cloud infrastructure. Proven track record as an Associate Software Engineer, Technical Support Engineer and Production Associate, demonstrating strong problem-solving skills, adaptability, and a commitment to high-performance solutions.

WORK EXPERIENCE

Associate Software Engineer | In10nt Digital *01/2026 - Present*

Developing custom Employee Management Systems and landing pages. Managing production deployment using cloud hosting and optimizing technical workflows for seamless delivery.

Intern Software Engineer | Creative Technology Solutions *07/2025 - 12/2025*

Working on Trackit, an internal employee management system. Focused on implementing robust backend logic and building responsive UI components using modern version control.

Technical Support Engineer | ICP Technologies *01/2024 - 06/2025*

Managed IT infrastructure and complex system troubleshooting, ensuring maximum service availability and performance through collaboration with development teams.

Production Associate | Innodata Lanka Pvt Ltd *2021 - 2023*

Supervised production teams for web-based projects while maintaining strict quality standards and daily operational targets.

KEY PROJECTS

Unitum Company Website | Corporate Web Solution

Designed and developed the official corporate website for Unitum, focusing on modern UI/UX principles, mobile responsiveness, and high-performance cloud deployment.

Employee Management System | In10nt Digital

Developed a comprehensive internal system to manage employee records, attendance, and performance tracking using modern full-stack technologies.

Autonomous Data Warehouse | Oracle ADW, Tableau

Architected a warehouse to analyse restaurant datasets with interactive dashboards for decision-making.

Juicy Hub (E-Commerce) | PHP, JS, Bootstrap

Responsive e-commerce site with product listings, cart, user authentication, and admin panel.

Travel Companion App | Kotlin, Maps API

Built a mobile app for destination suggestions and real-time navigation insights for travellers.
